Full stack web & mobile development

Saudi Arabia, Riyadh

SUMMARY

I am an innovative and dedicated web developer who enjoys a comprehensive vision in front-end and back-end development. I have three years of experience in creating dynamic and responsive websites, enabling a versatile and accessible user experience. I have advanced skills in HTML, CSS, and JavaScript, and am proficient in a variety of frameworks such as Vue.js and Angular. In addition, I have strong experience in database administration and worker-side scripting languages such as PHP and Node.js.
